Human Resources

Dear Sir or Madam,

I learned from the MASA web site that you have an elementary position open. I believe that my skill and experience make me an excellent candidate for this position.

My most recent position was as a first-grade teacher at Corte Sierra Elementary School. I have 16 years of experience teaching in the Litchfield Elementary School District. I have taught 1-4th general education, 3/4 and 3/4/5 ESL class and I also taught 6th grade Social Studies. I am energetic, motivated, show initiative and I am passionate about my students.

Along with my skills, I will bring creative, positive energy to the school. I have demonstrated excellent time management and multi-tasking skills. I set high standards for my students and I strive to make them feel safe and loved. I want my students to be passionate lifelong learners as well as great leaders. I am a team player and will help out where or how ever needed. I also think outside of the box. An example of this is when I stepped in and took over a 6th grade math class and had a sub cover my 6th grade social studies class. We could not get a sub for the math class, but we could for social studies. The students in the math class were suffering and I saw a solution.

Enclosed is a resume for your review. I will call in you a week to see if we can discuss this opportunity further. Thank you for your time and consideration.

Sincerely,

Kerry Schulte
