

Dear Search Committee:

Please consider my application for the posted Superintendent position. As a high-energy, proven professional, I provide dynamic and inspiring opportunities which support diverse learning opportunities. This support includes designing innovative technology integration practices, implementing research-based curriculum, instruction and assessment design processes, and establishing collaborative relationships throughout the community. My efforts are grounded in data-driven decision-making practices including engaging community, parents, school administration and teachers in courageous conversations regarding student achievement. Finally, I seek to build professional environments grounded in a passion for public education, life-long learning as well as the development other's professional and leadership skills.

To this end, throughout my teaching and administrative career I have supervised, supported and modeled diverse and equitable leadership practices including: 1.) Implementing Achievement and Integration practices grounded in culturally and linguistically responsive instructional practice; 2.) Comprehensive implementation of 1:1 programs resulting in an Apple Distinguished Educator award and Smithsonian Institute Laureate recognition; 3.) Establishing new online learning consortium; 4.) Implementing Understanding by Design as a district wide curriculum development process using a multiple year professional development plan; 5.) Implementing a continuous improvement process within a Professional Learning Community structure; 5.) District-wide professional development practices grounded in achieving strategic plan goals; 6.) Engaging in recruitment, program design and delivery of both pre-service and in-service teacher training at the university level, and 7.) Use of an equity lens and culturally responsive leadership practices to support personalized learning opportunities.

I believe my leadership skills, personal dispositions and professional passion for innovative practices within the public school system clearly communicate my ability to support innovative educational practices across the district. Therefore, I encourage you to speak with my references, and I would appreciate an interview opportunity.

Sincerely,

*Dr. J. Beddow-Schubert*

Julie Beddow-Schubert, EdD.
