Human Resources

Dear Sir or Madam:

I'm writing to express my strong interest in becoming your next assistant superintendent for your district. I believe in your mission for change. For me, a superintendent is more than a position; it's an opportunity to bring the school, the community, and district together in unity as we work together to achieve students' academic improvements in a safe learning environment. I believe and support lifelong learners as we make sure equity is accessible for all students. For me, providing people with the tools they need to do their job is my specialty.

One of my most vital strengths is relationship building. I see the person and the need, but it takes us as a community to create change for our students' future. I come from a broken school system; I rise above my circumstances. I know the ingredients (accountability, structure, practice and performance) it will take to overcome obstacles, that slows productivity. I've met and worked with some great leaders who have poured their years of wisdom, skills, and experiences into me, which has helped shape and prepare me to be the great leader I am today.

My Master's Degree in Education Leadership, Superintendent, and Principal Licensure through St. Mary's University are some of my accomplishments I've achieved as I work toward completing my Doctorate in Education in 2023. My vision, ability to hear and react appropriately to the needs of the people is an asset to your district. I have the education, knowledge, experience, and skills to lead with success; now, I'm waiting for the opportunity.

It would be a great pleasure to discuss this position with you in more detail. Thank you for your time and consideration.

Sincerely,

Janie Gholston
