To Whom It May Concern:

I have the distinct pleasure to recommend Patty Green for a position in your school system. Patty has been with Wahlert Catholic High School for the past three years serving as a Mathematics/Science instructor.

Patty has been an outstanding asset to our Math and Science Departments. As a teacher, Patty has been flexible and willing to take on courses outside of her initial comfort level. She accepted the role as a Project Lead the Way teacher and attended training for two weeks as required by the program. She did this on short notice. Patty also offered to begin teaching an AP level Physics class when the need arose due to a retirement of the previous instructor. This was in conjunction with teaching Math courses, including Algebra 2 and Geometry. The students enjoyed her instruction as she adapted to her new responsibilities at Wahlert.

Patty has participated in her weekly PLC team meetings and offers support and ideas for both Math and Science department colleagues. She is an outside of the box thinker.

Most importantly, Patty is a woman of high character. She is humble and gracious. The students, faculty and staff at Wahlert Catholic are fortunate to have been exposed to such a person. I highly recommend Patty for the position in your school. She will be dearly missed and hard to replace.

If you have additional questions or would like more information about Patty, please contact me at your earliest convenience at rmeyers@holyfamilydbq.org or 563-583-9771.

Sincerely,

A handwritten signature in black ink, appearing to read "Ron Meyers", with a long horizontal flourish extending to the right.

Ron Meyers, Principal
Wahlert Catholic High School
