January 24, 2017

To Whom It May Concern,

I have served as an Administrator in the Union Grove Union High School district for the past 27 years and am currently the District Administrator. In this capacity it has been my pleasure to work with Joseph Dawidziak for the past nine years that he has been at the Raymond School District, which is a K-8 district and one of four feeder schools to our high school.

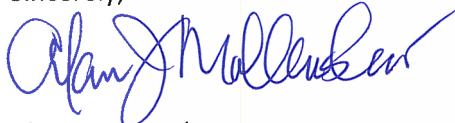

Joe exemplifies true leadership qualities, many of which I have witnessed over the past several years. He led the movement to become the first of our four K-8 districts, to implement a four year old Kindergarten.

Joe has been on the technology forefront for numerous projects within his district; (1) Raymond was one of the first districts in the state to implement a 1:1 chrome book program, which is now in all of our K-8 feeder districts; (2) His district was the first in our five school consortium to implement Smartboards within many of the classrooms; (3) He led his district to an increase of 100 MPB bandwidth before any of the surround K-8's or the high school. You can see that Joe is a Technology Leader and is not afraid to move a school district towards changes.

From the facility standpoint Joe has led a successful referendum of over \$4 million dollars, as well as an Energy Efficiency Project of close to \$2 million dollars.

Joe Dawidziak has the experience and strength of leadership to move any school district forward. I strongly recommend him for a K-12 District Administrator position and would be more than happy to speak with anyone regarding his qualifications.

Sincerely,

Alan J. Mollerskov  
District Administrator
