Re: Recommendation for Ms. Lori Conmy

I have had the pleasure of having Ms. Conmy as an administrative intern during Fargo Public Schools summer school in 2015 and 2017. The program serves over 600 students with academic opportunity and another 1,200 in summer sports camps. In 2017, Lori took the lead with daily attendance and organizing the multi-faceted summer sports camps. She did a terrific job with this. Additionally, Lori filled in for multiple days of principal absences. Lori has a comprehensive leadership experience with summer school.

Ms. Conmy brings an intentionally positive attitude to work each day and readily accepts any offered task or opportunity. She is a patient problem solver. Lori understands how important it is to work to uncover the root of the behavior, while placing value on the person she was helping (student or staff or parent or coach). I am able to offer any complex challenge to Lori because of her effective, team approach.

I am confident that Ms. Conmy has the potential to be a highly effective leader in the principalship or district level administration position if given the chance. I highly recommend that any search committee give her candidacy serious consideration.

Sincerely,

A handwritten signature in black ink that reads "David Burkman" with a long horizontal flourish extending to the right.
